**A Project Report on**

**"QazaqAlphabet" – Learning Qazaq Alphabet on the go Android App**

**Introduction:** The objective of this project is to develop an Android app that helps learning Qazaq alphabet for English speaking people. This app helps user by providing whole up-to date alphabet, sounds of each letter, words and pictures containing a letter and a sound quiz to practice. “QazaqAlphabet” app is design to help user learn the basics of Qazaq language on the go and in the pocket.

**Features**: The app has the following features:

**Alphabet Table**: Alphabet table contains all letter and lets user to choose one on them and start learning it.

**Letter Card**: Each Letter in the alphabet has its’ own card which contains a letter(Uppercase and lower case), word that contains the letter, picture of the word and sound button for letter and image.

**Sounds**: App contains recordings of all letters and words used in the letter cards.

**Sound Quiz**: Quiz that tests the user’s memory on letters. Quiz window has a button on a to play the sound of the letter and another 3 option buttons with letter to choose. The questions were built in the way that 3 chosen letters are similar so that finding the right letter for the sound would be tricky.

**Future enhancements** may include adding basic grammar lessons and basic vocabulary.

**How to Use "QazaqAlphabet”:**

**Install:**

Install the app on your device.

**Access Alphabet**:

1. Launch the app on your device.
2. Press the “Alphabet” button on the main menu.

**Access Letter Card**:

1. From the Alphabet window press on any letter

**Play the sounds:**
